

# Performance Shagya-Arabian Registry Inspection

The Shagya-Arabian is quickly becoming the breed of choice for riders and equine enthusiasts in all disciplines. It owes its noble qualities of devotion to its rider, a kind temperament, hardiness, size, athleticism, and jumping ability to a selective and dedicated breeding program and a history of rigorous performance testing.

The result? A rare and versatile equine partner equally at home in dressage, endurance, show jumping, eventing, harness and pleasure riding.

**PShR**  
Performance Shagya-Arabian Registry

*September, 2017*

*Welcome to the Performance Shagya-Arabian 2017 Inspection*

*On behalf of the Inspection Committee, I am very pleased to welcome all PShR members, friends, sponsors, judges and volunteers to the 2017 PShR Inspection. The Inspection Committee has worked tirelessly to arrange an inspection with a world class panel of judges, test rider and veterinarian to perform the highest quality inspection and evaluation of the beautiful Shagya-Arabian and Shagya sporthorses. The PShR Inspection is held in the European style and approved by the International Shagy-Araber Gesellschaft (ISG).*

*The PShR prides itself in combining the traditional testing procedures with modern standards including the Interior test and mare performance testing. Testing provides valuable information for not only breeders seeking appropriate breeding stock, it provides documented information for buyers seeking accurate information when selecting the perfect riding horse.*

*Please enjoy the wonderful horses being presented this weekend. They represent the future of our breed.*

*Lucy Stafford*

*PShR President*

# What is a Shagya-Arabian?

Today's Shagya-Arabian is a rare, but versatile sport horse equally at home at dressage, eventing, show jumping, hunting, endurance, harness, and pleasure riding.

The breed began in 1789 when the Hungarian military set out to develop a new breed of horse that combined the very best of Bedouin Arabians: elegance, endurance, hardiness, athleticism, temperament, and devotion to their rider, but with larger size, jumping ability, and riding ease to master the rigors and versatility of a cavalry

horse. The intent of the program was to develop a superior horse that was equally at home under saddle and in harness and that could be used to improve other breeds. So successful was the breeding program that the Hapsburg's Imperial Guard in Vienna and the Royal Guard in Budapest were mounted on Shagya-Arabians, and Shagyas were the cavalry officer's horse of choice.

The breed's name comes from a magnificent Bedouin stallion named Shagya, born in 1810, bred (from Kehilan and Slglavy strains) and raised by the Bani Saher stud in Babolna, Hungary. This magnificent stallion was renowned in his day not only for his perfect size, type, and movement, but also for his ability as a sire to pass on these qualities to his offspring. Today, virtually every Shagya-Arabian breeding line has his blood somewhere in it. Through time, elite desert bred Arabians were carefully added to the bloodlines, and English Thoroughbreds and Lippizaners were occasionally included in the breeding mix to

Right from the outset, performance testing was regarded as essential. Both mares and stallions were put through rigorous tests, including dressage, a 10- day 480 mile ride across plains, forests and mountains, 2-mile sprints, and long distance driving. Careful records were kept of the horses' jumping, speed, condition, and disposition. New stallions were rigorously progeny tested, including breeding to 30 mares a year for 3 years, the mares differing in quality.

Ten were of low quality, ten of average quality, and ten high quality. The offspring were carefully reviewed by committee, and if any did not meet the standards, the entire group was sold off. Any mare or stallion that did not meeting the high standards were culled and sold at auction, ensuring that only high performance bloodlines were used in the breeding program.

The characteristics of the Shagya-Arabian are well established. The Shagya- Arabian should have the appearance of a beautiful, elegant, and harmonious riding horse with correctness of gaits and movements, who enjoys jumping and has good jumping ability, has pleasant rhythm and rideability, is trusting, good natured, and willing to learn, and has robust health, longevity, and fertility with stamina and frugality. Although there is no longer a military need for Shagya- Arabians, all the noble qualities the breed possesses, make it an ideal horse.

## The Performance Shagya-Arabian Registry

### INSPECTION: Description of Events

Inspection for Mares and Stallions, **Shagya-Arabian or purebred Arabian**, consists of multiple, mandatory phases. These include the Veterinary Exam, submission of SCID and DNA results, In-Hand and at Liberty presentation, Under Saddle/Rideability, Interior Test, and Free Jump. Additionally, Open Competition requirements in one of several disciplines must be completed and documented. Successful completion of these requirements results in PShR Licensing and placement in the PShR Studbooks per their performance and pedigree.

Evaluation of Geldings and Shagya Sporthorses, **Shagya-Arabian or purebred Arabian**, are evaluated rather than inspected. Evaluation includes the choice of one or all of the following tests: In-Hand and at Liberty presentation, Under Saddle/Rideability, Interior Test, and Free Jump. Successful completion of these tests results in certification.

#### Veterinary Examination

All mares and stallions seeking licensing and breeding approval must stand for the licensed veterinarian at the inspection site. The purpose of the exam is to look for anomalies, heart defects, existing faults of teeth or testicles, deficiencies or other conditions indicating genetic predisposition. The exam will include but is not limited to a flexion test and trot out on a hard surface.

#### In-Hand and At Liberty Presentation

Horses will be presented using the USDF Sporthorse In-Hand procedure. Horses will be shown on the triangle and at liberty in both directions of the ring. The horses should be clean and well behaved. Handlers should be appropriately dressed in conservative attire.

Grooms will be allowed in the arena to help encourage the horse to move in a natural manner. The judges will evaluate the horse for 'type' and physical attributes of the head, neck, body and legs. On the triangle and/or at liberty, the judges will score the horse's movement at the walk, trot and canter.

#### Under Saddle/Rideability

To complete the Under Saddle/Rideability test, horses four (4) years of age or older will be ridden at a walk, trot and canter in the discipline style of the riders' choice. Horses will be ridden both directions of the ring, complete a 20 meter circle and cross the diagonal of the ring. There is a cross rail to jump at the gait of the rider's choice. If possible, two or three horses will work in the ring at one time. Mixing stallions with mares can be an exception. Two test riders will ride the horse and report to the judges their overall impression. Observations will include: Way of going and quality of the gait, overall impression, willingness to work, temperament/obedience.

- continued -

# The Performance Shagya-Arabian Registry

## INSPECTION: Description of Events Continued

### Interior Test

The Interior Test is designed to determine the character and temperament of the horse in an unusual situation. The horse will be scored on his willingness to walk beside the handler in an easily managed fashion. When directed by the judge, the handler and the horse enter the arena. The horse should be next to the handler with some slack in the lead. The space between the handler and horse should remain consistent. The horse should have a pleasant and interested attitude with a flat walk. Overly excited response to obstacles as well as complete non-interest in the presented course will result in lost points. Optimally the horse remains manageable and calm when unexpected stimuli occur and exhibits a trusting, good-natured behavior.

### Free Jumping Protocol

The free jumping chute consists of 3 obstacles, in order: a simple cross-rail, a cross rail with a horizontal rail directly behind, and an oxer. The handler will first walk the horse into and alongside of the chute to allow him to see and become familiar with the chute set-up and jump elements. Evaluation criteria: When jumping a horse should look bold, confident and happy while displaying good jumping ability. Front legs should be tucked while the hind legs are open. The back should be well-arched (basculé) and elastic. The horse should be able to determine the appropriate take off and landing over the jump. Undesirable jumping technique include jumping without control, hanging forelegs, head too high, retracted hind legs and a stiff, straight or hollow back.

### Branding of PShR Shagya-Arabians

As per the ISG RZBO and the PShR ZBO (breeding guidelines) Shagya-Arabian horses (including foals) may be branded by the branding delegate on the left thigh with the breed specific “Shagya-Sun” brand. Any exceptions must be approved by ISG. To qualify for branding a Shagya-Arabian must have both a sire and dam belonging to Books I or II. Branding is a birthright of legitimate, purebred offspring; it does not depend on inspection or performance testing.

# Judit Erzsébet Kovács

## PShR Inspection Judge

Judit's choice of profession was determined by her fascination towards riding and horses. She was graduated from the Agricultural University of Gödöllő as a certified engineer in agriculture with specialty in animal breeding biotechnology. Soon after the university years she also was educated as a horse riding instructor. At that time she had already had her first junior horse, a two-year-old unriden mare of the Hungarian breed Furioso of Mezőhegyes, whom she rode in herself.

At the end of the '90s she was able to live her dream: she got job in the Arabian Stud of Bábolna as a stud-book keeper engineer and she also worked for the Society of Hungarian Arabian Horse Breeders, where she was a member of the Breeding Committee. After some reorganization and personal changes in Bábolna she left the stud, and moved to County Tolna, where she became an animal breeding inspector at the County Office of the Hungarian Agricultural Ministry.

Between the years 2003-2016 she led the County Office of the Agricultural and Rural Development Agency (Hungarian paying agency for agricultural subsidies financed by the European Union.)

Also during these 13 years she kept in touch with the Hungarian Arabian Horse Breeders Society: she was asked to judge at stallion examinations in Bábolna first time in 2001 and since then almost every year. She completed the ISG international judge course in 2006 after which she was invited to judge Shagya horses in Austria, Switzerland and at international shows in Hungary. She considers it a great honour that together with dr Walter Huber she had already judged for the PShR at the inspection-tour in the US in 2015. From 2017 on she is the breeding-leader of the Society of Hungarian Arabian Horse Breeders.

She currently resides in SW-Hungary, in County Tolna with her horses. She still has her horses who are now 27 and 22 years old and already in pension. They are family members for their life-time. Judit found a new activity for them, by joining the topics of horses, coaching and leadership: with the assistance of her horses she supports leaders to develop their potential by experiential learning with horses.

a

## **Marie Johnson**

### **PShR Inspection Judge**

Born in Fontainebleau France, Marie Johnson showed an early interest in riding. She competed at the Junior International level in France in Show Jumping and Combined Eventing. After an internship at Saumur French Riding Academy, she was licensed as a Riding Instructor by the French Riding Federation. In the United States, Marie is an 'R' judge in Dressage and an 'r' judge in Combined Eventing. For many years, Marie's horse related activities have included teaching, holding clinics, and training, organizing shows, and judging. Marie has judged Dressage, Combined Events and Sport horses all over the United States including at the Scottsdale Arabian Horse Show in Scottsdale Arizona in February 2017. Marie continues to enjoy judging as an opportunity to provide insight and guidance to the future generation of riders and horse enthusiasts. Marie currently lives near Madison Wisconsin and enjoys

taking care of orchids and wild birds as well as spending time with her dog and horses.

## **Dr Scott Austin**

### **PShR Inspection Veterinarian**

Dr. Austin joined the faculty at the University of Illinois College of Veterinary Medicine in 2011. Currently, he is the Head of Equine Medicine and Surgery and is an equine internal medicine clinician in the large animal hospital. Dr. Austin also devotes his time to providing on-farm primary care to horses and showing students a different side of equine practice than they see at the teaching hospital.

Board certified in equine internal medicine, Dr. Austin completed both a master's degree in veterinary parasitology and a residency here at Illinois. Before beginning his position as clinical associate professor in veterinary medicine, Dr. Austin spent 13 years as an associate veterinarian at Wisconsin Equine Clinic and Hospital in Oconomowoc, Wisconsin, and taught at Waukesha County Technical College and Virginia-Maryland Regional College of Veterinary Medicine.

# Martha Rattner

## PShR Test Rider

Martha has been training horses professionally for over 35 years and has been a certified judge for 30 years, judging at such prestigious shows as the U.S. and Canadian Nationals, Scottsdale Arabian Horse Show, and the Australian National Horse Show, with expertise in judging Arabians, Hackneys, National Show Horses and American Saddlebreds.

Since beginning her riding career at the age of six, Martha has gone on to train and show U.S. and Canadian National Champions in Hunter, Show Hack, Driving, Park, English Pleasure, Side Saddle and Native Costume.

Martha's love of horses came naturally; her mother, Cecile Hetzel Dunn has been a multi-breed horsewoman, judge and steward for over 40 years, and her stepfather, the late Norman K. Dunn, was a past president of AHA, as well as director of Cal Poly University in Pomona CA. Growing up in Florida, Martha rode as often as she could, and by high school was showing for Burr Hill Arabians.

After earning a Bachelors of Science from Northwestern State University in 1979, Martha continued pursuing her love of horses, first by working for Marquis Farms in Scottsdale, then with Mike Nichols and Don Delongpre in Santa Barbara, and finally at Varian Arabians.

After working for LaCroix Ltd. in 1991 and 1992, Martha struck out on her own in 1993 in Kentucky, and her business eventually evolved into what is now Martha Murdock Stables.

Martha has continued to find success throughout the equine industry through judging, training and showing over the past 35 years.

# H. WineGlass Serenade

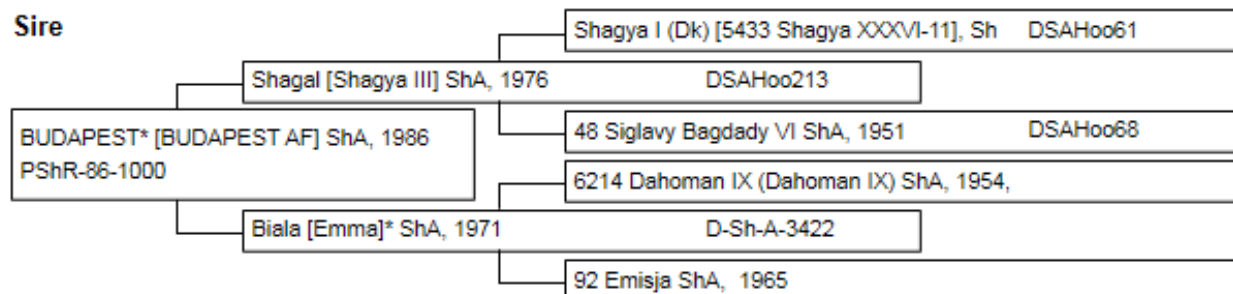

Owned by Linda Rudolphi, Presented by Olivia Rudolphi

Serenade is the 2009 edition of what has become a "Golden Cross". She is a full sister to Syrah who continues her endurance career with Top Ten placings and frequent Best Condition awards. Brothers include the charismatic Szolo and Soave, both proving to be elegant in dressage. In addition, sister Sangria has been successful in dressage and becoming a serious competitor in endurance. Serenade is the sports car model of the siblings, we are anxious to see her future.

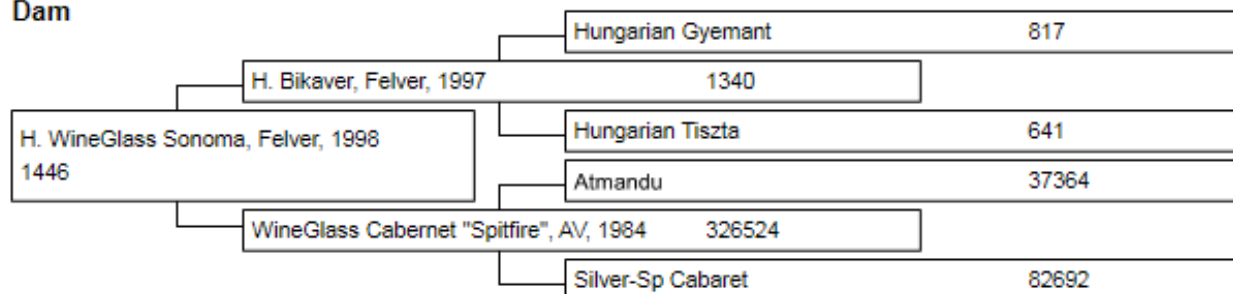

## Family Tree

### Sire

### Dam

# H. WineGlass Szolo

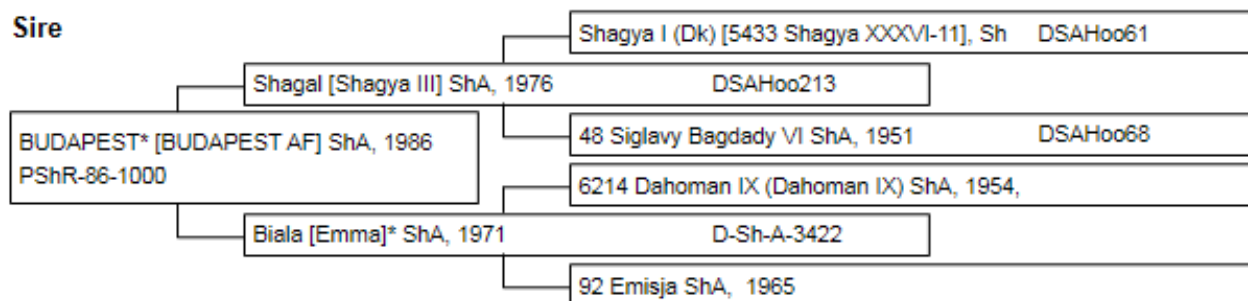

Owned by Chris and Marty Power, Presented by Liz Brockhouse

H.WineGlass Szolo was on my “wish list” from the time he was born. Linda posted on FaceBook that we would have to break her arm to get him. Undaunted, I had his picture on my refrigerator for years. Unfortunately, we had a four horse barn and he would be our fifth. Between Linda and Chris it was a tough sell. Eventually, both relented, we built a fifth stall and Szolo came home. I couldn't be happier. He's everything I'd dreamed about. He was started by, and is currently in dressage training, with Laurie Treber. Long-range plans are to continue his dressage training and begin his endurance career.

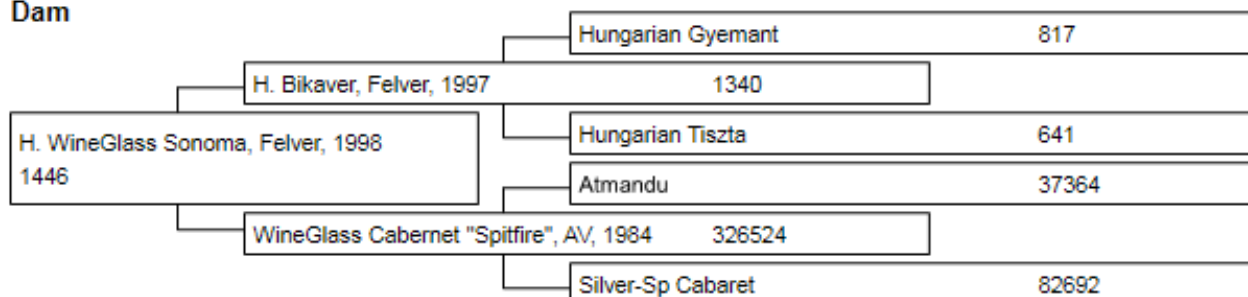

## Family Tree

# HS. WineGlass Pik Two Buck Chuck

Owned and Presented by John Stafford

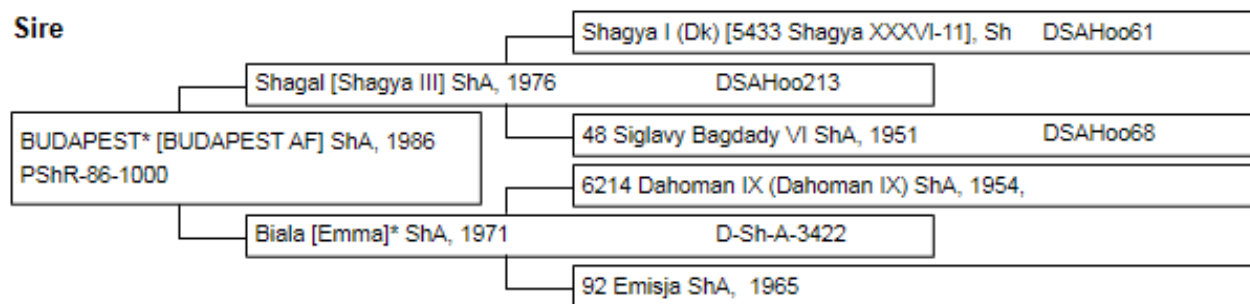

Three years ago, I was searching for a versatile horse of good temperament, and sound confirmation that could go the distance. "Chuck" was recommended to me by my vet, Dr. Rachel Powell as a possible option. She owned two Shagya Sport Horses and found they are athletic, sensible, and intelligent. Chuck, now seven (7), has demonstrated all of these admirable qualities and continues to improve each year.

He moves down the trail at a workman like pace, easily covering many miles with his strong, smooth trot and quiet presence. Since learning Chuck's dam was a working ranch horse, we plan to make his next adventure a western sport involving cows.

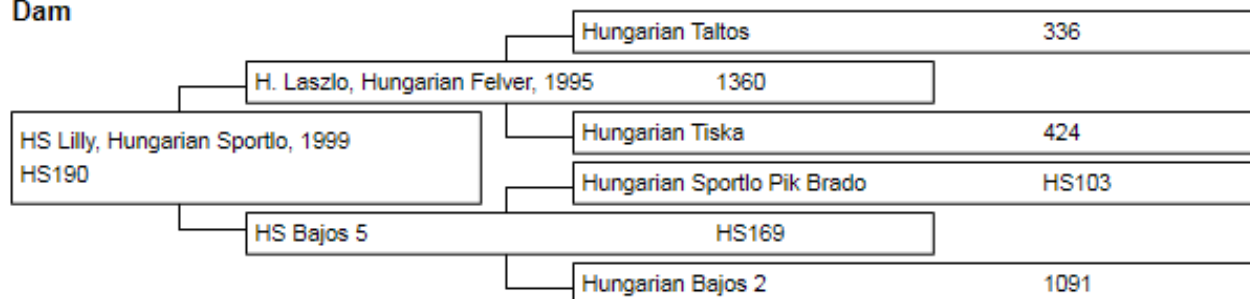

## Family Tree

### Sire

### Dam

# KW Shiraz

Owned and Presented by Kayla Smith

Three years ago Shiraz came into my life, originally to work with for a year for the owners/breeders, but after a year of working with her I knew I had to own her, luckily knowing them so well we worked out a deal.

In that year I had learned that she had experience a bad slip/fall w a previous trainer, which explained why she could not trot comfortably or canter without cross firing. With chiropractic and

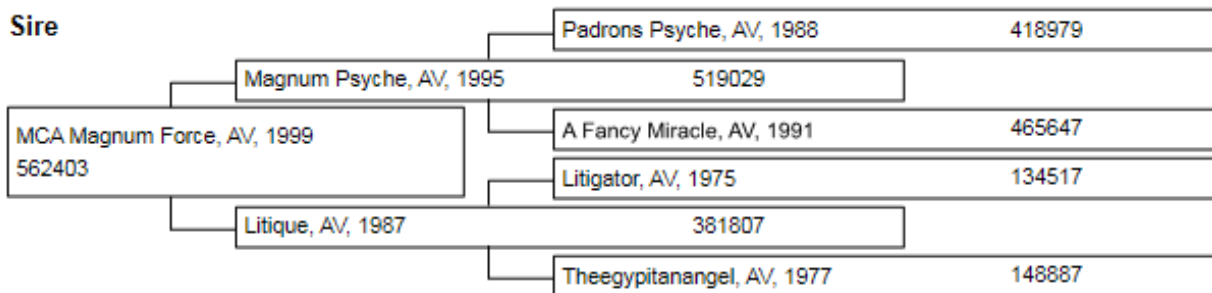

MagnaWave treatments she has become "sounder" and stronger in her gaits, besides more trusting of her rider.

My goal for her is in the next couple years will be to show her at recognized Arabian/dressage shows before eventually breeding her first to a purebred Arab stallion.

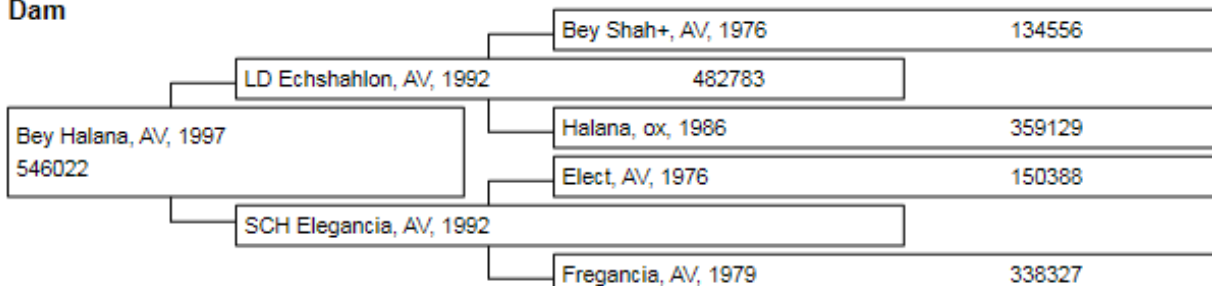

## Family Tree

### Sire

### Dam

# Lily Creek Rhythm

## Owned and Presented by Sherry Aune

Rhythm is the most incredible horse-athlete I have ever owned! I bought Rhythm from Joe & Michelle Mattingly in 2012. She was the first horse I'd bought in 27 years, as I had been breeding my own.

In 2013 Rhythm completed 21 rides with eight 2nd, seven 1st and eight Best Conditions (BC). Rhythm was PShR Champion Limited Distance (LD) horse and ASAV high mileage Shagya. Rhythm was also the AERC Midwest Region's 1st LD mileage award and 2nd place LD BC award.

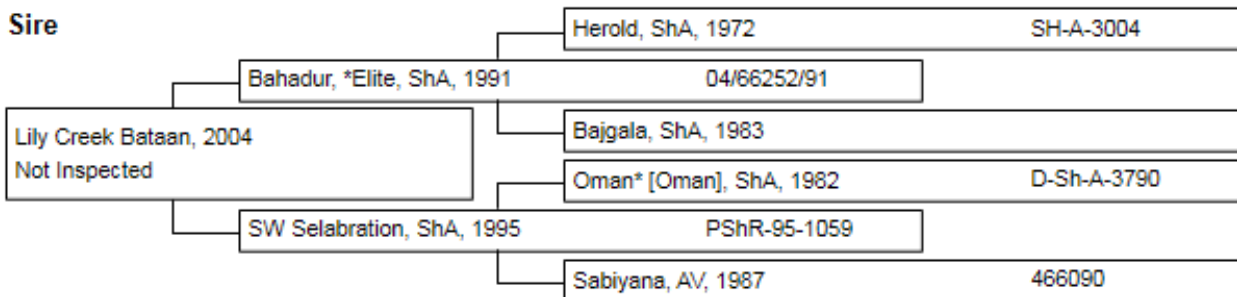

In 2014 Rhythm went 810 endurance miles with a 100% completion rate. She finished in the top ten in all but 1 ride, had three 1st and three BCs. Most notably, we did the Shore-to-Shore five day 250 mile ride and Rhythm finished all 5 days, receiving 2 BC's and overall BC for the 250 mile ride! Rhythm's AERC awards included Top Ten War Mare, Pioneer Middleweight 2nd place, Midwest 1st place Endurance and Midwest BC 5th place.

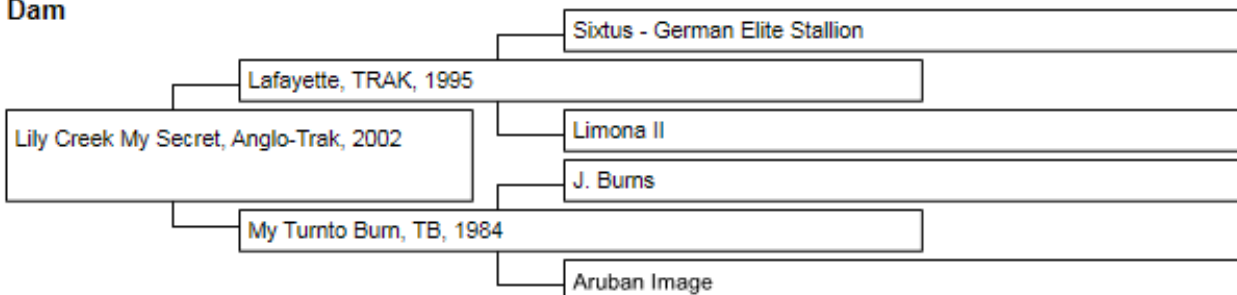

2015 & 2016 turned out to be challenging years for me due to injuries, thus, the reason for breeding Rhythm in 2016. Rhythm has now proven herself to be an awesome broodmare as well. This foal has the best temperament, confirmation and athletic ability I have bred.

### Family Tree

#### Sire

#### Dam

# SA Te Jat

**Owned by Chris and Marty Power, Presented by Marty Power**

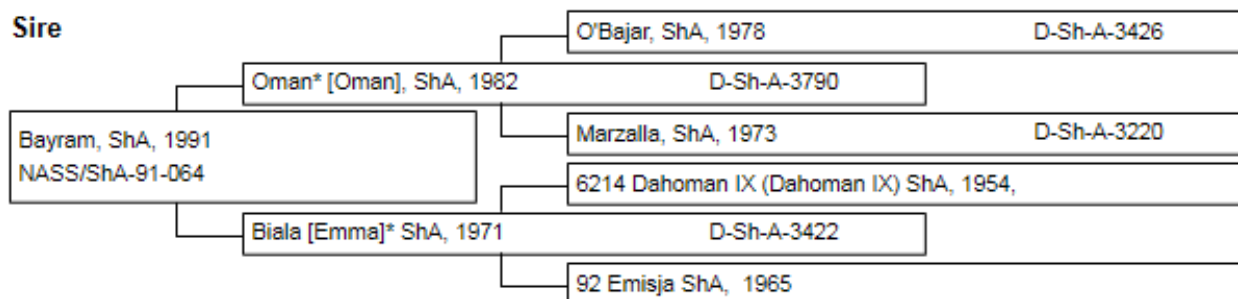

**PSHR Specialty Plus Award in Distance Riding (4635 miles) and Endurance Pace**

We bought SA Te Jat from Daunna Sellers, Sun Arab Stables, as a just started five year old in 2003. Marty and Te began their distance riding career the following year and in 2004 he was the UMECRA Reserve Champion Competitive Rookie of the Year (loosing to Chris and H. Bikaver). In 2005 Te was the UMECRA LW Competitive Champion. In 2006, 2007, 2009 and 2010 Te completed in the UMECRA top ten in whatever discipline he competed (competitive, limited distance or endurance). In 2009 and 2016 Te was the UMECRA, Versatility, Reserve Champion and the AHDRA, Versatility Partbred, Champion. He is truly a versatile horse!

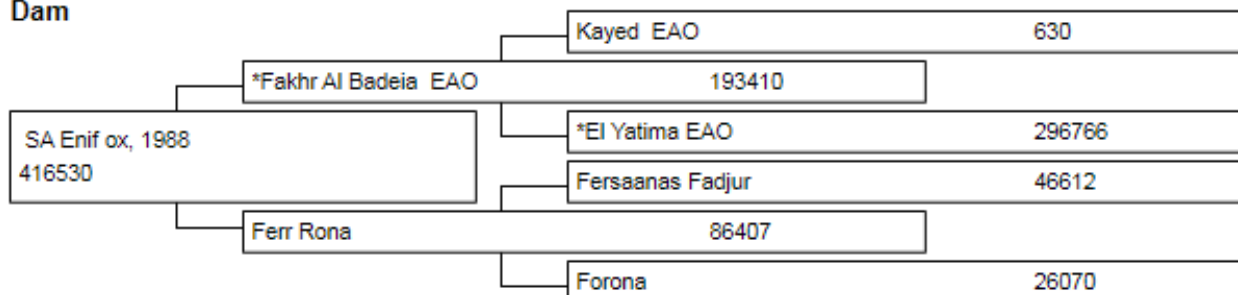

## Family Tree

### Sire

### Dam

# WineGlass Vivant

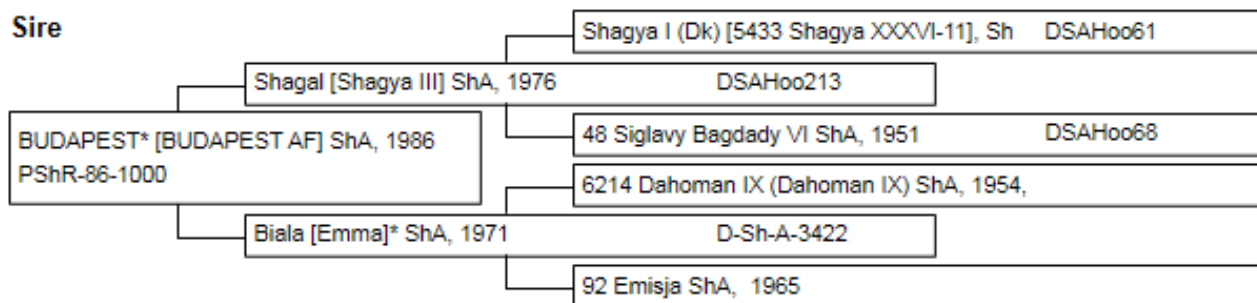

Owned by Linda Rudolphi, Presented by Olivia Rudolphi

Vivant is the full brother to WineGlass Sherry, the 2013 Arabian Horse Association National Champion Competitive Horse. He is also a son of Linda's all time favorite riding horse, the purebred Arabian mare WineGlass Voodoo. His grand-dam is the successful endurance and competitive mare RushCreek Fawn ridden by Aunt JoAnne Gernant. Fawn was a 1971 chestnut Arabian mare of straight Harris breeding. JoAnne and Fawn accumulated over 3,000 miles with National and Regional AERC endurance awards, UMECRA Champion Competitive Champion 3 times, Top Ten Canadian National Competitive Ride 1983, and Top Ten IAHA Competitive National Champion in 1978.

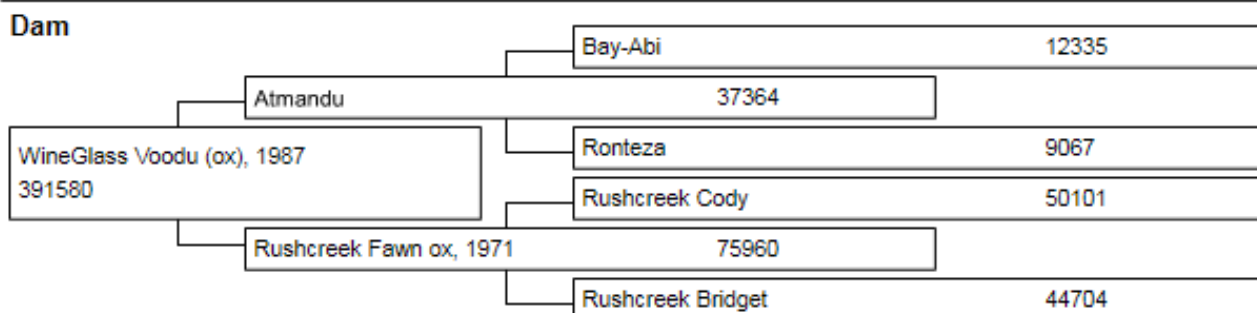

## Family Tree

### Sire

### Dam

# WineGlass Dolchetto

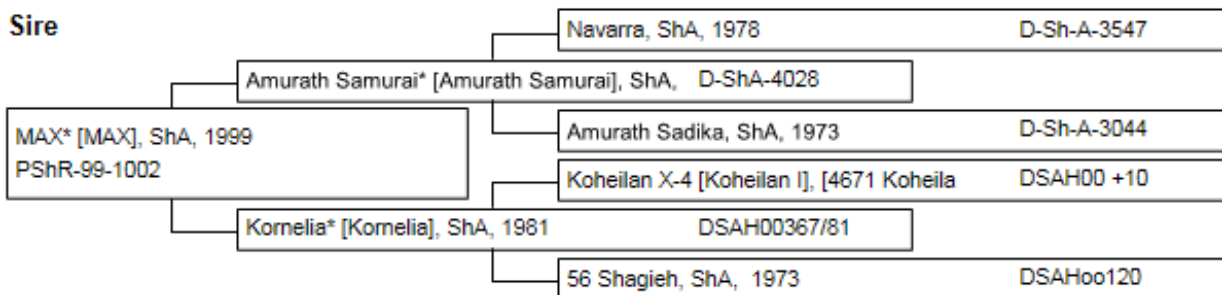

Owned by Linda Rudolphi, Presented by Olivia Rudolphi

Sweet Dolchetto was a last minute substitute. As a green 3 year old she has already proven her "will-do" attitude by learning to trot in hand, go through Interior test obstacles and even beginning to lunge at the walk and trot in a very short period of time. Dolchetto is a full sister to WineGlass Dora, one of the first PShR horses to complete all the PShR mandatory and performance criteria established in 2012 when the PShR became an ISG member. Dolchetto has the impressive distance riding uncles Debonair and Dubonnet. In addition, uncle Dominus who is starting his second career as a trustworthy police horse after a very successful distance riding career.

# JA Equine Bodywork

Helping horses achieve a well-balanced life

### Does your horse ...

- Resist the bit?
- Not pick up a lead or turn well in one direction?
- Trip a lot?
- Show reluctance under saddle?
- Not move as well as he used to?
- Have asymmetric movement or muscling?

### What I do:

- Musculoskeletal Unwinding
- Acupressure
- Applied Kinesiology
- Cranial Sacral Therapy
- Body Balancing
- Emotion Coding and Releasing
- Soft Tissue Work
- Energy Work

**What horses can benefit from bodywork?** All horses – from pasture pals to elite athletes. Bodywork helps the horse live a better, healthier, happier life by balancing him/her physically and emotionally and relieving pain.

**Jen Allen**

**PShR**  
Performance Shagya-Arabian Registry

Welcome to the first Performance Shagya-Arabian Registry Learner Judge session!

Whether you become an International Shagya-Arabian Society (ISG) judge or you are only interested in learning more about this magnificent breed of horse - we are excited to have our learner judges with us today!

They will receive materials accumulated through the years in hopes it will not only explain, but make you aware of the responsibilities we have as judges and breeders to the Shagya-Arabian horse. I cannot tell you how welcoming and willing to share information the members of the International Shagya-Arabian community have been, most of this information is from their generosity and dedication to the breed. One significant document is the welcome address Tamas Rombauer made to the 2007 ISG Learner Judge Seminar in Babolna as he touched on several good points, one of my favorites being:

***"We must recognize the each horse is a single station in the process of breeding."***

To become a recognized ISG judge an individual needs to apprentice at a three shows and/or inspections; more may be required depending on an individual's scoring and/or the size of the events. The judging seminar at this inspection will count as one of those apprenticeships. An official ISG Judging Session must be attended as another part of the requirements. These are only held in Europe and are not an annual event. There may be several years in between, so if a session is scheduled I would recommend you attend if you want to finish your training. Upon the completion of the required training the member organization, in this case the PShR, will verify the training and would make the recommendation to the ISG for the individual to become an ISG judge. On behalf of the PShR Board of Directors, enjoy your day and thank you for your participation.

*"Pride through Performance"*

Linda L Rudolphi

ISG Judge

PShR Registrar

**Performance Shagya-Arabian Board of Directors**

Lucy Stafford, President

Kathy Voyer, Vice-President; Holly Haddenham, Secretary; Julie Jackson-Biegert; Nicole Mauser-Storer; Martha Power and Linda L. Rudolphi

Non-voting officers: Anker Brander, Past President; Holly Kemmis, Treasurer.

***The Performance Shagya-Arabian Registry is a member of the International Shagya-Arabian Society.***

\* Not yet inspected/evaluated for Book placement

\*\* Mares and Stallions born before 2005 grandfathered into the correct Book Placement without required performance criteria.

# Functions of the ISG

The ISG's aim is the coordination of the Shagya Arab breeding in the participating countries concerning the aims of breeding, the preservation of the clean breed and the support of the Shagya Arab.

ISG represents the interests of Shagya Arab breeding internationally

ISG draws up guidelines regarding the stud books for its members. All national stud books need to be accepted by the ISG.

The ISG has different types of members:

- National networks or stud farms, writing their own stud book or offering a special department for stud books for Shagya Arabs.
- Individual breeders with a voting right and personal members of countries without a representative office. Maximum membership is 5 years.
- Supportive members (Members supporting the ISG without a right to vote)

Every year, the ISG organizes a meeting of delegates, where next to delegates of the national networks and stud farms, also individual breeders and supportive members are invited. Moreover every second year an ISG European championship for Shagya Arabs is arranged by a national network and financially supported by the ISG. The ISG carries out judgement training courses and seminars for judges. Furthermore the ISG offers a list of official judges to organizers of shows.

National networks usually face following tasks:

- Approval of stallions and mares
- Placement of suitable breeding horses
- Taking stock of the whole Shagya Arab population
- Setting regulations concerning the stud books for the clean breed of Shagya Arabs accepted by the ISG
- Representing the interests of its members in national and international networks and boards
- Keeping an organized stud book
- Carrying out breeding shows, exhibitions and performance tests
- Answering questions of its members regarding breeding and keeping Shagya Arabs
- Arranging training courses and sports events
