CHF Hadbans National Anthem - 2016 Shagya-Arabian Stallion
***Hadban USA AB/NASS2009/l x Mattingley Freedom (half-Arabian)**

HEIGHT	15-1	hands 156	cm (155 cm=15.1 hands)
GIRTH	68.5	inches 174	cm (178 cm=70 inches)
CANNON	7.75	inches 19.5	cm (19 cm=7.5 inches)
Type Gender & Breed 7 /10	<i>Appearance of a beautiful, elegant & harmonious riding horse. Distinct gender specific characteristics.</i> Young colt showing typical Hadban characteristics. Overall he could use more Arabian dryness and expression.		
Head 7 /10	<i>Small, defined, dry & expressive. Can be slightly concave or straight. Eyes large & wide apart. Nostrils expressive. Throatlatch wide.</i> As a 3 year old colt he is already showing a stallion impression. Has an expressive wide forehead. His eyes could bigger and be set more prominently.		
Neck 7 /10	<i>Long noble riding horse neck, fine throatlatch, light neck with an arched crest is desirable.</i> His neck could be longer and set higher on his shoulder with a more defined throatlatch. With work and age his topline should develop.		
Body 7 /10	<i>Long shoulders, slope blends into withers & back. Medium length back, close coupling, well-muscled with elastic movement. Croup slightly sloped and long.</i> Overall harmonious topline even though he is long in the loin. Withers could be more prominent. Still exhibits a juvenile body, depth should develop with age.		
Legs 7 /10	<i>Should be dry, well muscled & exhibit distinct joints. Smooth transition into the cannon bone. Pasterns elastic and medium length. Well shaped hooves in proportion to the horse.</i> For his age his joints are of a good size but would want to see more definition develop. Stands with front legs under his chest and needs more angle at the shoulder to elbow. Nice short cannon but pasterns are weak.		
Walk 8 /10	<i>Rhythmic, regular 4-beat with active, relaxed & ground covering stride.</i> His walk is the best of the 3 gaits with good rhythm and most ground covering.		
Trot 7 /10	<i>Rhythmic, regular 2 beat diagonal stride with energetic forward motion at acceleration. Distinct impulsion. Ground covering with momentum & elasticity and noticeable hovering phase.</i> Tight through the back & shoulder, he could display more swing in the back. Could drive more from behind & track up better. Hind legs are too far behind in the trot. Tightness in the elbow prevents ground covering and balance.		
Canter 6.5 /10	<i>Rhythmic, regular 3 beat stride in correct sequence. Exhibit diligent, powerful, magnificent movement with momentum & elastic uphill carriage.</i> Canter is tight like the trot but not as ground covering.

GIRTH	71	inches 180	cm (178 cm=70 inches)
CANNON	7.9	inches 20	cm (19 cm=7.5 inches)
Type Gender & Breed 7.5 /10	<p><i>Appearance of a beautiful, elegant & harmonious riding horse. Distinct gender specific characteristics.</i></p> <p>Well conformed horse with good stallion expression, could be a little more Arabian in type. Excellent frame with good riding horse points. Good overall proportion of a classic Arabian.</p>		
Head 7 /10	<p><i>Small, defined, dry & expressive. Can be slightly concave or straight. Eyes large & wide apart. Nostrils expressive. Throatlatch wide.</i></p> <p>Masculine head with large well set eyes and wide forehead. Elegant. Nostrils could be finer for Arabian type.</p>		
Neck 7.75 /10	<p><i>Long noble riding horse neck, fine throatlatch, light neck with an arched crest is desirable.</i></p> <p>Arch of neck is fluid and does not show any under slung muscling. Good length of neck with a nice shape and set onto shoulder. Good throat latch. Good riding horse neck.</p>		
Body 7 /10	<p><i>Long shoulders, slope blends into withers & back. Medium length back, close coupling, well-muscled with elastic movement. Croup slightly sloped and long.</i></p> <p>Depth of chest and withers are good for a riding horse. Croup has a nice slope with a well muscled hip. Loin could be shorter. A little bit higher behind than height of withers. Stifle could be more forward.</p>		
Legs 7 /10	<p><i>Should be dry, well muscled & exhibit distinct joints. Smooth transition into the cannon bone. Pasterns elastic and medium length. Well shaped hooves in proportion to the horse.</i></p> <p>Correct legs with good length. Good bone and big joints. Good round feet. Tracks straight. Compensates for injury with RF leg when standing.</p>		
Walk 7 /10	<p><i>Rhythmic, regular 4-beat with active, relaxed & ground covering stride.</i></p> <p>Good energy and rhythm - very diligent. Could move under more but compensates well. Could be more relaxed and have more swing thru the back - could be due to injury. Shows more extension at liberty but Grade 2.</p>		
Trot 7 /10	<p><i>Rhythmic, regular 2 beat diagonal stride with energetic forward motion at acceleration. Distinct impulsion. Ground covering with momentum & elasticity and noticeable hovering phase.</i></p> <p>Excused due to injury.</p>

CANNON	7.50	inches	19	cm (19 cm=7.5 inches)
Type Gender & Breed 7 /10	Appearance of a beautiful, elegant & harmonious riding horse. Distinct gender specific characteristics. Arabian sport horse type.			
Head 7.5 /10	Small, defined, dry & expressive. Can be slightly concave or straight. Eyes large & wide apart. Nostrils expressive. Throatlatch wide. Feminine head but could have more Arabian expression. Eyes are big enough and good large nostrils. Head could be drier.			
Neck 7 /10	Long noble riding horse neck, fine throatlatch, light neck with an arched crest is desirable. Straight but long enough. Could sit higher on the shoulder.			
Body 8 /10	Long shoulders, slope blends into withers & back. Medium length back, close coupling, well-muscled with elastic movement. Croup slightly sloped and long. Prominent wither and blends well into the back. Deep body and chest. Hips are well muscled and large with a slight slope to the croup. Good length of hip. Harmonious body proportions.			
Legs 7 /10	Should be dry, well muscled & exhibit distinct joints. Smooth transition into the cannon bone. Pasterns elastic and medium length. Well shaped hooves in proportion to the horse. Cannons are short and dry. Joints could be more distinguished. Tendons are tied into the back of the knee. Pasterns are short but have a good angle. Good round hoof.			
Walk 6.5 /10	Rhythmic, regular 4-beat with active, relaxed & ground covering stride. Lacked rhythm and short strided, does not track up well. Walk lacks a distinguished 4 beat.			
Trot 6.1 /10	Rhythmic, regular 2 beat diagonal stride with energetic forward motion at acceleration. Distinct impulsion. Ground covering with momentum & elasticity and noticeable hovering phase. Move tight in the elbow and front fee appear to be sore. Up and down movement rather than a lateral swing of the leg.			
Canter /10	Rhythmic, regular 3 beat stride in correct sequence. Exhibit diligent, powerful, magnificent movement with momentum & elastic uphill carriage. Not able to score due to surface and space.

HEIGHT	15-3	hands 160	cm (155 cm=15.1 hands)
GIRTH	72.8	inches 185	cm (178 cm=70 inches)
CANNON	7.75	inches 20	cm (19 cm=7.5 inches)
Type Gender & Breed 8 /10	<i>Appearance of a beautiful, elegant & harmonious riding horse. Distinct gender specific characteristics.</i> Very typey Shagya-Arabian mare in a big frame.		
Head 7.5 /10	<i>Small, defined, dry & expressive. Can be slightly concave or straight. Eyes large & wide apart. Nostrils expressive. Throatlatch wide.</i> Lovely head but could exhibit more feminine and Arabian type in her profile.		
Neck 8 /10	<i>Long noble riding horse neck, fine throatlatch, light neck with an arched crest is desirable.</i> Long neck with a fine throatlatch. The neck is connected well to the shoulder needing to be set higher. Nice big shoulder that could use more slope.		
Body 7 /10	<i>Long shoulders, slope blends into withers & back. Medium length back, close coupling, well-muscled with elastic movement. Croup slightly sloped and long.</i> Body mid-section is longer than the shoulder & hip. The loin is a little long and weak at the connection of the hip. Good slope to the croup.		
Legs 6.1 /10	<i>Should be dry, well muscled & exhibit distinct joints. Smooth transition into the cannon bone. Pasterns elastic and medium length. Well shaped hooves in proportion to the horse.</i> Hocks could have more angle. Left front leg is offset at the knee and turns in at the fetlock. Left foot hoof is low on the outside.		
Walk 7 /10	<i>Rhythmic, regular 4-beat with active, relaxed & ground covering stride.</i> Low energy walk. Conserves energy well.		
Trot 7 /10	<i>Rhythmic, regular 2 beat diagonal stride with energetic forward motion at acceleration. Distinct impulsion. Ground covering with momentum & elasticity and noticeable hovering phase.</i> Trot could show more suspension and covering of ground. Would like to see more swing through the back.		
Canter 6.5 /10	<i>Rhythmic, regular 3 beat stride in correct sequence. Exhibit diligent, powerful, magnificent movement with momentum & elastic uphill carriage.</i> The canter is heavy on the forehand and needs more balance. The mare prefers to trot rather than canter.

GIRTH	72	inches	187	cm (178 cm=70 inches)
CANNON	7 1/8	inches	18	cm (19 cm=7.5 inches)
Type Gender & Breed 6.5 /10	<i>Appearance of a beautiful, elegant & harmonious riding horse. Distinct gender specific characteristics.</i> Very compact and round body, over conditioned. Shows Shagya-Arabian type. Has a friendly expression.			
Head 7 /10	<i>Small, defined, dry & expressive. Can be slightly concave or straight. Eyes large & wide apart. Nostrils expressive. Throatlatch wide.</i> Feminine head with good eyes but could show more Arabian expression and dryness.			
Neck 7 /10	<i>Long noble riding horse neck, fine throatlatch, light neck with an arched crest is desirable.</i> The neck is long enough, but a little wide and heavy for a mare. Throatlatch could be finer.			
Body 8 /10	<i>Long shoulders, slope blends into withers & back. Medium length back, close coupling, well-muscled with elastic movement. Croup slightly sloped and long.</i> Withers are round and could be more prominent. Harmonious topline. Hip has a good angle. Shoulder has a good slope and length of humerus. Has a deep and wide body.			
Legs 6.5 /10	<i>Should be dry, well muscled & exhibit distinct joints. Smooth transition into the cannon bone. Pasterns elastic and medium length. Well shaped hooves in proportion to the horse.</i> Good short cannon bones. She could use more bone in proportion to her body. Joints could be more defined.			
Walk 8 /10	<i>Rhythmic, regular 4-beat with active, relaxed & ground covering stride.</i> Active with swing in the back and tracks up well. Good length of stride.			
Trot 7 /10	<i>Rhythmic, regular 2 beat diagonal stride with energetic forward motion at acceleration. Distinct impulsion. Ground covering with momentum & elasticity and noticeable hovering phase.</i> Tight thru the shoulders. Back was tighter at the trot than at the walk.			
Canter 6.5 /10	<i>Rhythmic, regular 3 beat stride in correct sequence. Exhibit diligent, powerful, magnificent movement with momentum & elastic uphill carriage.</i> Even more tightness thru the shoulders.

Type Gender & Breed 7.5 /10	<i>Appearance of a beautiful, elegant & harmonious riding horse. Distinct gender specific characteristics.</i> Exhibiting elegant Shagya-Arabian type in a compact frame. Showing a stallion expression at a young age.			
Head 8 /10	<i>Small, defined, dry & expressive. Can be slightly concave or straight. Eyes large & wide apart. Nostrils expressive. Throatlatch wide.</i> Stallion qualities seen in big eyes, large jowl and distinguished nostrils.			
Neck 7 /10	<i>Long noble riding horse neck, fine throatlatch, light neck with an arched crest is desirable.</i> Throatlatch could be finer. Neck has a medium set on the shoulder at this age. Well muscled for his age.			
Body 8 /10	<i>Long shoulders, slope blends into withers & back. Medium length back, close coupling, well-muscled with elastic movement. Croup slightly sloped and long.</i> Withers could be more prominent however the topline is harmonious for his age. Good long sloping shoulder. Showing body depth and chest development. Hip line is of medium length and muscling is developing.			
Legs 7 /10	<i>Should be dry, well muscled & exhibit distinct joints. Smooth transition into the cannon bone. Pasterns elastic and medium length. Well shaped hooves in proportion to the horse.</i> Nice short and dry cannon bones. Toes out at this time and age. Good angle of the pasterns, could be longer. Joints are prominent enough at this age.			
Walk 6.5 /10	<i>Rhythmic, regular 4-beat with active, relaxed & ground covering stride.</i> Diligent, could track up more. Walk could be more active thru the back and in a better rhythm.			
Trot 7 /10	<i>Rhythmic, regular 2 beat diagonal stride with energetic forward motion at acceleration. Distinct impulsion. Ground covering with momentum & elasticity and noticeable hovering phase.</i> Trots with tightness in the elbows and could use more swing in the back. Needs more suspension.			
Canter 6.5 /10	<i>Rhythmic, regular 3 beat stride in correct sequence. Exhibit diligent, powerful, magnificent movement with momentum & elastic uphill carriage.</i> Canter is on the forehand at this time and age. Moves tight in the shoulder and elbow. Not in balance yet and could be more uphill.

GIRTH	70 5/8	inches	180	cm (178 cm=70 inches)
CANNON	7.5	inches	19.2	cm (19 cm=7.5 inches)
Type Gender & Breed 6 /10	Appearance of a beautiful, elegant & harmonious riding horse. Distinct gender specific characteristics. Nice Sporthorse type in a large frame. Could show more Shagya-Arabian type.			
Head 6.5 /10	Small, defined, dry & expressive. Can be slightly concave or straight. Eyes large & wide apart. Nostrils expressive. Throatlatch wide. Head has a straight profile that could be more Arabian in his expression. The forehead could be wider with the eyes set more prominently. Good nostrils for a sporthorse.			
Neck 7 /10	Long noble riding horse neck, fine throatlatch, light neck with an arched crest is desirable. Neck is of mid-length and could be set higher with a more elegant crest.			
Body 7 /10	Long shoulders, slope blends into withers & back. Medium length back, close coupling, well-muscled with elastic movement. Croup slightly sloped and long. Straight shoulder needing more length in the humerus to the elbow. Good heart girth compared to his body size. Withers could be more prominent but blends well to the back. His young age can be seen in his topline and width of chest. The hip line could use more slope.			
Legs 6.1 /10	Should be dry, well muscled & exhibit distinct joints. Smooth transition into the cannon bone. Pasterns elastic and medium length. Well shaped hooves in proportion to the horse. Joint size of the hocks is good but the joint is too straight. Tendons tie into the back of the knees. Toes out behind. Legs in general could have a greater bone size with more joint definition.			
Walk 7 /10	Rhythmic, regular 4-beat with active, relaxed & ground covering stride. Walk needs more energy and swing in the back. Moves tight in the shoulder. Has a flat stride.			
Trot 6.5	Rhythmic, regular 2 beat diagonal stride with energetic forward motion at acceleration. Distinct impulsion. Ground covering with momentum & elasticity and noticeable hovering phase. Needs more suspension to be more ground covering.			
Canter 7 /10	Rhythmic, regular 3 beat stride in correct sequence. Exhibit diligent, powerful, magnificent movement with momentum & elastic uphill carriage. Showed more energy at the canter. For his age his canter is balanced and in good rhythm at various stride lengthenings.
