

## **Performance Shagya Registry BOD Meeting - Notes**

**April 9, 2009**

**Call in #: 800-444-2801      Pass-code: 3003128**

### **Members attending**

Shelley Housh  
Eric Nelson  
Lisa Fiano  
Lori Baker  
Kayla Reimer  
Kathy Johnson  
Carolyn Reimer  
Linda Rudolphi

### **Guest: Carin**

Visted with Linda Rudolphi & Marty Power at WineGlass Farm. Carin briefly said hello on the phone meeting.

### **Performance Testing**

Has tested all mares in the performance test - tests include dressage, jumping, cross country on one day, rideability and conditioning on the next day. Especially made for Arabian horses. Horses come from many different countries for the test in Germany.

Is the endurance test the only way that a stallion or mare can get performance tested? no jumping, dressage

### **By-Laws**

will be sent around to the BOD for approval

### **SCID - Breeding Guidelines**

Germany does not test for SCID in the Shagya, only Arabs. Discussion for testing was to determine whether testing would be done for pure bred Arabs and half-arabs - This will be changed in the breeding guidelines.

### **Stallion Reports - Breeding Guidelines**

PSHR will review case by case situations where either mare or stallion owners will not give signature of release for DNA results. Reports will have to include results that are available for the data base. Some horses will have verified parents and some will not. The breeding guidelines need to allow for registration of horses who do not have all of that information. The data base could be used to reevaluate registration of horses as more DNA data becomes available.

Linda sent a lot of the information that PShR has put together back to Germany with Carin.

**Awards**

There will be an electronic vote for the awards information online.

An email will go out to find a date when we can all meet again.

Linda made a motion to approve and Kathy seconded
