## From the PShR President

Dear Members, Friends and Volunteers,

We all hope that spring is coming in big steps in your part of the continent. It is time, at least for us in the North, to clean up the leather, taking care for foals and enjoying the first long rides outside.

We the board members and volunteers were not idle during the winter. Our 2013 Year End Award winners were selected, the ISG meeting needs some preparation and the website was refreshed

Thank you to all involved.

We are thinking to have an inspection this year. Steve Boles is so helpful and willing to start the process. If you plan on attending please send an application for your horse you want to have inspected or complete a performance test. We don't have the finances to do the inspection out of the

membership fees, which makes it necessary to know how many horses are coming to determine our expenses.

YOU are asked now to commit!!! There are volunteers and enthusiastic people ready to start to organize the inspection. Judges have to be selected, invited, flights and locations to be booked to make it a second time a successful inspection!!! It is not possible without your commitment. Please contact Steve at: [sboles@hsc.edu](mailto:sboles@hsc.edu) as soon as possible or the summer is gone and another year without inspection. It's up to you to let us get started!!!!

We also have the ISG meeting in Babolna, 11.-13.July 2014. Are you interested to be a learner judge and participate at the seminar there? We need the

information about who wants to go to Babolna; we do have to inform the ISG as soon as possible.

We hope you enjoy the Newsletter, we wish you a wonderful spring.

Let us hear from you, we are thankful for any input.

Yours truly and in the name of the board members - Holly, Julie, Kathy, Libby and Linda.

Anke Brander

President

Shagya Stallion Murad

# Registrar's Report

**A link to the PShR DNA form for a hair submission to Texas A&M can be found on the PShR web-site:**

**<http://performanceshagyaregistry.org/wp-content/uploads/2012/01/DNAForm.pdf>**

One of the goals of the PShR is to welcome past owners, members and horses who have not been or have left the ISG umbrella to the PShR registry for the future of the Shagya breed in the US and Canada. Congratulations to the ASAV BOD members who contacted the PShR about the possibility of joining the PShR and aligning with the ISG standards. The PShR is excited to have these lovely horses in the registry and looks forward to working with the new members.

To register an ASAV horse with the PShR by June 1, 2014

Please send the following to the PShR Registrar:

**1-** ASAV registration certificate

**2-** Copy of DNA results

**a-** If the horse does not have a DNA test results please submit hair samples to Texas A&M.

**b -** DNA results from Texas A&M will come to the PShR registrar for the permanent registry horse files. PShR will provide the current owner of the horse with a copy of the DNA results with the correct pedigree printed on the back for the owner's files. It is important for all horse owners to have a copy of their horse DNA results, the PShR helps make this possible by providing a copy and not adding a surcharge.

**c -** The only fee is \$25 to Texas A&M.

**d-** Geldings are being asked to submit DNA results to

verify parentage.

**3-** Four identification photos taken from all 4 angles of the horse

**a -** If the horse has an unusual marking extra pictures are appreciated. These photos will remain the PShR registry individual horse file. If the horse ever needs identification in the future these photos are of great importance.

**4-** Owner of the horse must be a current member of PShR.

**5-** If the horse has been approved for Shagya breeding by an ISG member registry, please enclose a copy of the inspection results.

**6-** Any other information that is important for the horse file may be requested.

## ISG Learner Judge Program

PShR members wanting to enroll in the ISG Judges Training program July 11, 2014 at the Babolna Stud in Hungary need to contact Anke Brander. Members must be recommended by their ISG registry

and their name submitted as an apprentice judge. This is an excellent opportunity to not only receive training but to also learn more about the Shagya-Arabian standards. This seminar was last held seven (7) years ago. To complete your certification an individual is also

required to participate as an apprentice judge with a mentor. For more information visit the ISG website at: <http://shagya-isg.com> For information about the historic Babolna State Stud go to: <http://www.babolnameneshu>

# PShR Letter to ASAV Horse Owners

## PShR

Performance Shagya-Arabian Registry

January 12, 2014

Dear Friends,

The Performance Shagya-Arabian Registry Board of Directors wishes the ASAV the best for the New Year 2014.

After many discussions with concerned ASAV members, it is agreed that only together we are strong. Alone or in little groups not affiliated with the ISG the horses are only a whisper in the wind. We have spoken with several Shagya-Arabian and part-bred Shagya-Arabian owners, mostly ASAV members, about the need to have their horses registered and recognized by the ISG. We listened to their concerns and questions and tried to find a solution within our bylaws.

Unanimously, the PShR has decided the following:

- \*To offer to register any horse with an ASAV registration for free until the 1. July 2014.
- \*To waive the registration fee, but the horse owner must pay a Membership fee of \$35(Year)
- \*Purebred Shagya-Arabians will be registered in the internationally accepted Books, conforming to international standards.
- \*Owners of part-bred Shagya-Arabians will be eligible for our Sport horse register.

To promote the future of the Shagya in the US and Canada, we want to extend to you the opportunity to register your Purebred Shagya-Arabians and Part-bred Shagya-Arabians with PShR. The PShR invites you to add yourself and your wonderful horses into the ISG registry to strengthen and promote this precious Breed.

We all hope to hear from you soon.

Sincerely in the name of all PShR Board of Directors.

Yours truly,

Anke Brander  
PShR President

## European Championships 2014 and ISG-Meeting in National Stud Bábolna

The 2014 European Shagya-Arabian Championships will be held in Hungary at the beautiful National Stud farm in Bábolna, Hungary for three days : July 11th, 12th & 13th, 2014. During this event the ISG delegates meeting and also ISG training for judging Shagya-Arabians will take place on Friday, July 11th, 2014. In addition to the 225 year celebration of the Babolna Na-

tional Stud and ISG European Championship for Shagya Arabs, the ECAHO (European Conference of Arab Horse Organizations) exhibition for Pure Arabian Horses will be held.

For more information check: <http://shagyaworld.com/events/european-championships-2014-and-isg-meeting-in-national-stud-babolna/>

# Shagal [2906 Shagya III, Babolna]

*Shagal was the scrambled horse name quiz in the last PShR newsletter.*

*Our winner of the PShR mug was*

*Lene Moellgaard of Denmark.*

*In Babolna the stallions have a pedigree tablet hanging above their individual stall. Below is a picture of the tablet for Shagya VI (Shagya III-1). Being named Shagya III-1 means this is the first colt by Shagya III (Shagal) to be used as a stallion. Once the colt becomes a Chief Shagya Stallion he receives a Roman Numeral = Shagya VI.*

Bred by Ulla Nyegaard, Denmark. Born 1976

Shagya I (DK) [5433 Shagya XXXVI-11] x 48 Siglavy Bagdady VI

Sire line: Shagya db, 1830 Dam line: 215 Molderin, 1782

By Dr. Walter Huber, Nonnenhorn, Germany

Edited by Anke Brander

*(Editor's Note: Dr. Walter Huber is an esteemed member of the Board of Directors of the ISG (International Shagya Araber Gesellschaft) and dear friend of the PShR. He submitted the story of his beloved stallion, Shagal, to Anke Brander who edited his narrative so it could be shared with our readers.)*

Dr. Huber fell in love with Shagal the first time he saw him in November of 1985 at the stallion approvals in Darmstadt,

Germany. Shagal was named 'Champion, Best in Show' in 1979 and the European Champion Shagya Stallion in 1986. In 1985, Shagal was approved for Trakehner breeding by the Trakehner Verband in Munster Handorf, Germany. It took several years of negotiations with the owner of Shagal in Denmark before he could finally welcome the stallion to his home in January of 1987.

From Dr. Huber: "Riding him was interesting and a

pleasure. I had to win him as a friend and partner. I learned quickly there is no chance with force. That was a challenge for my mind and heart." Dr. Huber enjoyed many successful shows with Shagal, one of the most memorable, was in Baden near Vienna, Austria where they received the title of 'Grand-Champion' at the International Championship in addition to winning his riding

class. The judge Dr. Daniel Antunovits, a former director in Babolna, commented Shagal was the "best stallion in the last 20 years".

In 1990 Shagal returned to Denmark. Dr. Huber heard positive stories about Shagal's breeding prowess, but under saddle, things did not go so well. Shagal required a rider who would accept his strong personality. But this special

Dr Huber and Grand Champion Shagal in Baden

rider was not to be found in Denmark. Dr. Huber knew if the stallion was treated with control he would shut down and in some situations, even fight back. So, in the best interest of all parties, Dr. Huber negotiated to bring Shagal back to his stable. Happily, in 1992 this wonderful stallion returned once more to Walter's stable.

When Shagal arrived, he looked very good, but when

riding him, Dr. Huber was distressed to learn that Shagal's strong and graceful movement was gone. With great care, kindness and months of conditioning with only trail riding, Shagal recovered.

Mares were brought from everywhere in Europe, including Babolna. Dr. Huber remembers especially one mare that he did not think would be a good match, the mare '162 Amer' (Amer (ox) x 57 Gazal IX). However, Walter says now, "Tamas Rombauer was right, her Shagal son is today Shagya VI (1994, Babolna) and an excellent jumper." Shagya VI became the best breeding stallion by Shagal in Babolna. His offspring were very successful at the European Cham-

V (1995, Babolna) and Shagya VI (1994, Babolna).

In 1996, Shagal returned to Walter Huber's. During this time, which became Shagal's final homecoming, they enjoyed their last Foxhunt.

Upon retirement Shagal was sent to Ireland and stood the stud of Mr. Boepple, a Trakehner breeder. This was quite a difficult decision as Shagal was now 20 years old. Walter negotiated for specific conditions for his favourite stallion - a large stall with direct access to a big pasture. Upon agreement to these terms Shagal moved to Ireland. Myrtle Lodge Sport Horses in Ireland bred several mares to Shagal at that time. At first, he lived with a mare

bought the Shagal son Shagan out of one of his favorite mares Shydra (105 Shagya XLIV-5). Shagan (1988, Gottfried Meuser) not only became a much loved riding partner he was also

used by the Kabiuk State Stud. Shagal's influence has been extensive in the US through his sons \*Budapest (1986, Nyegaard) and \*Shandor (1983, Nyegaard), both great stallions in their own right inheriting Shagal's size, wonderful disposition and versatility. There are over 200 first, second and third generation Shagal progeny registered in the Performance Shagya-Arabian Registry and the Hungarian Horse Association of America.

Shagan above at his stallion testing and below in Kabiuk being ridden by Svetlo Kastchiev.

L to R: Champion Filly Shagya VI-1 [Shagya VI x 253 Kemir v] and Champion Mare Tigra [Ramiro x Tifla], Marbach 2013

pionship in Marbach 2013 with his daughter, Shagya VI-1 awarded Reserve Champion mare.

In 1994 Shagal moved to Babolna, where his name became Shagya III (2906 Shagya III). Every colt he sired became an approved stallion, two of them remained as stallions at Babolna today, Shagya

as companion, but he was not content. So, they gave him his son, out of a Trakehner mare, and Shagal seemed pleased. In 2000 Walter traveled to Ireland and rode him for the last time. In December of 2004 this wonderful stallion died.

Shagal's legacy lives on in his talented offspring. Dr. Huber

Above: Dr Huber riding Shaganah, a Shagal granddaughter and below riding Shagal on a Fox Hunt.

# Lene Moellgaard

My name is Lene Moellgaard, I am in my late 40's, and live in Denmark.

I was so lucky to win the PShR mug in the contest in last issue of the magazine, for which I want to say thank you very much to the BOD of PShR! I was very happy to be able to join the contest, even when living in Europe and just being member of the PShR Facebook Group. Thanks!

I was then asked in return to write a little about myself, and that is what I have tried to do in the following lines...

I have been interested in Horses since I was a child, and started riding when I was 10 at a local "Pony Club". The club was owned by a lady, who was one of the pioneers in DK, when it came to importing ponies from UK, and then cross them with Purebred Arabians

to get bigger and lighter ponies as riding ponies for children. This was what later became the foundation for the "Danish Sport Pony" breeding.

Through her breeding program, and her horses, I learned what difference it makes, when you use the Arabian horses for crossing. Not only were the ponies bigger, they had better movements, were easier to handle, more "spirited" in a positive sense - and they also were beautiful to look at :-)

This was what triggered my interest in the Arabian horse. I read the magazines and books of this lady, and whatever literature I came across, and at some point I decided that once I would get to get my own horse, it should definitely be an Arabian horse! It didn't quite happen like this, since my first own horse, which I got in 1993, was a cross between a Thoroughbred and a Frederiksborg - but she had a lot of the same characteristics, which I love about the Arabian horse... Intelligence, a people-

orientated mind, versatile, elegant - and a real friend and companion. Eventually I was considering making a foal from her, so I started investigating the stallions that were at the market... Of course it should be an Arabian stallion - so I got the stallions list from both the Purebred Arabian and the Shagya Arabian part of the Danish Society for Arabian Horsebreeding - and this was, when I first learned about the Shagya Arabian breed.

I never came to breed her (would rather ride her), but my interest in the Shagya Arabian horses was founded. Some years later the internet got into our home, and I started investigating the breed, and getting in touch with fanciers from around the Globe. Since I know both Danish, German and English I was able to communicate with people from the countries that are most into the Shagya Arabian breeding, and learn from a lot of them about both their horses, their breeding programs, and about the

**[www.moellgaard.dk](http://www.moellgaard.dk)**  
**is a great source for links**  
**about Shagya horses and**  
**associations in addition to**  
**Aika dogs.**

breed in general. I will not name any of them here in fear of forgetting someone, but they all know, who they are - so a big thank you all for your patience in answering all my silly questions over the years.

My interest in the breed led to my next horse being a Shagya Arabian mare - at that time (2001) a 2 year old filly - Carmen (by Bonjour Bajar out of Shamira by Shetan), and the year after her half sister Epona as a yearling (by Bonjour Bajar out of Söbo's Tara by O'Bajan). Both mares were bred by Fam. Gammelgaard, Studfarm Dyrehaven here in DK.

I have had a lot of fun with my two girls over the years, even though I don't ride that much

living near Copenhagen as a riding horse.

Besides the horses, my life has also been a lot about dogs. Over the years my ex and I had Welsh Corgi Pembrokes, and later we had Akitas. First, what is now known as the "American Akita" (Ikiru), and later 2 "Japanese Akitas" (Tora & Kanzi) (in FCI countries the two breeds are split, I believe that in the USA, they are still considered as one breed). I have spent a lot of time showing the dogs, training them, just being with them - like with my horses, and even though I don't have any dogs in my life at the moment, I am sure I will again one day, when I find I have the neces-

stories, news, knowledge and photos of our beloved horses. Please feel free to join, if you like!

I am also running the Shagya link list at [www.moellgaard.dk](http://www.moellgaard.dk) Even though the site is not really finished, the link list is there, and is updated once in a while. Feel free to check it out - and if you know of any Shagya Arabian related site, I don't have in the list, please drop me an email and I will include it.

I have also a couple of times written articles for "Shagya Araber" - the booklets from Ingrid Zeunert - you might know them, even though they are in German?

I guess that was basically it - thanks for listening in - and thanks again to PShR for letting me win the mug!

Feb. 2014  
Lene Moellgaard

Above: Djacar [Daru x Carmen] at one month of age in 2004. Below Djacar in 2005 & Epona [Bonjor Bajar x Sobo's Tara]

Above: Carmen  
Below: A hike in the snow

L to R: Shagya mare Carmen [Bonjour Bajar x Shamira] and Fnuggi [Shagya x Danish Sport Pony].

any more. But working them from the ground can also be fun and make great bonds between horse and trainer. Both of the mares were bred once - sire of both foals was the Dahoman stallion Daru (Djardan out of Tura by Dahoman XXXI). From Carmen came "Djacar" in 2004 and from Epona came "Evita" in 2005. Due to various circumstances Epona and Djacar are no longer with us. Carmen is still with me, now with her little young body "Fnuggi", a cross between a Shagya Arabian and a Danish Sports Pony. Evita is

sary time for providing them a good home.

Besides my hobbies - horses & dogs - I am working as a Planner in Siemens Wind Power - an interesting job in an interesting and growing industry. But also quite time consuming...

What more can I tell...? I run the "Shagya Arabian News" group on Facebook, an international group of fanciers of the Shagya Arabian Horse. The group is about sharing

# Svetlo Kastchiev

Our friend Svetlo Kastchiev died December 24, 2013 from stomach cancer. It is just as unbelievable for me to write this as I am sure it is for you read this sad news.

The loss of Svetlo is a tragedy on so many levels. The Shagya world lost an esteemed ISG judge with high standards and the knowledge of how to reach those standards. The Kabiuk State Stud in Bulgaria lost an excellent breeding manager; his knowledge is clearly visible in the horses present at this historical facility. The PShR lost a valuable mentor and supporter. And on a personal level, I have lost talks with a horseman I respected beyond words.

Those of us fortunate enough to attend the PShR Inaugural Inspection were given the unexpected opportunity and unbelievable experience to learn from Svetlo. He pushed us to realize and appreciate the high standards our Shagya bred horses should be held to and the achievements they can accomplish. It was an honor to know and laugh with him.

On behalf of the PShR members our sincere regards to his family "Nazdrave to Svetlo" You will be forever in our memory and heart.

Respectfully, Linda Rudolphi

## Biography Reprinted from the 2013 PShR Inspection Program

Svetlozar Kastchiev is not only the Stud Manager of the Kabiuk State Enterprise in Bulgaria, he is also a National Dressage champion (10 times!) and twice was the Balkan dressage champion. He is the President of the East Bulgarian Horse Association and the Bulgarian Sport Horse Association, which are full members of World Breeding Federation for Sport Horses. In addition, Mr. Kastchiev is a national Dressage and Jumping judge and a FEI Eventing judge. The below picture is of Svetlo riding his East Bulgarian stallion Tarzan, Champions in dressage.

Mr. Kastchiev has been breeding Shagya-Arabian horses for over 20 years and has bred over 300 Shagya-Arabian foals for Kabiuk. Kabiuk is the only surviving state stud in Bulgaria, originally established in 1864 as a military stud for the Turkish army. In 2004 under the Livestock Husbandry Act, the Kabiuk State Stud and Stallion Depot became a company owned by the state and governed by the Ministry of Agriculture in Bulgaria. Its key activities are horse breeding and the state-funded preservation of indigenous cattle and sheep. Breeds of horses include the Shagya-Arabian, the Eastern Bulgarian Warmblood, Thorough-

bred, purebred Arabians, Haflingers (used on the farm as work horses) and Shetland ponies. The farm is 2832 hectares (6998 acres) of tillable crop land and lush pastures.

The Kabiuk State Enterprise is a leader in artificial insemination – Mr. Kastchiev is a key part of that success. His keen eye for genetics and his ability to breed one of the most successful bands of Shagya-Arabians led to the acceptance of the Kabiuk Stud as an ISG member in 1998. The dynamic 1988 Shagya-Arabian stallion Mefistofel (Metropol x Fregata by Fero), a result of Svetlo's first year as stud manager, is an example of crossing athletic purebred Arabian bloodlines (Negativ, Priboj, Moment, Faruk) with historic Shagya bloodlines (Parabel, Dahoman XLV) to achieve a strong yet elegant sport horse. According to the book "Origin and Development of Arabian and Shagya-Arabian Breeds in Bulgaria" by Assistant Professor Iliyana Sabeva, Mefistofel is considered by some West-European specialist as the best Shagya in Europe at this time. In addition, the Shagya-Arabian mare Mezinka SA, bred in Kabiuk, was named the 2007 Best Shagya mare in Denmark.

When visiting Kabiuk, it quickly becomes apparent Mr. Kastchiev has a natural eye, and is able to select up and coming youngsters with potential from the herd. We are fortunate and honored to have the lifelong horseman Svetlo Kastchiev join us for our first PShR inspection.

## PShR Meeting of the Board of Directors March, 26<sup>th</sup> 2014

Attendees: Kathy Johnson, Libby Fletcher-Henderson, Linda Rudolphi, Holly Kemmis, Julie Jackson-Biegert, Anke Brander

The Minutes of the Board Meeting 8 Dec.2013 were reviewed. Linda motioned, Julie second. The minutes were accepted unanimous.

Holly – Treasurer- gave an financial update : The account balance is \$ 2685.64 There are expected bills to pay proximately \$ 160.00

Advertisement Zeunert: After considering the minimum costs of Euro 160.00 and the advertisement in German the Board members decided unanimous against an advertisement .

Membership fees for Stallions: The advised changes from Linda were seen as necessary .

**For the "PShR Policy for the Placement of Licensed stallions or mares from other ISG registries into the PShR" I added a 4th point:**

**4 - The owner of the stallion must be a member of the PShR in the year a mare is bred by their stallion.**

**a - This fee may be paid by anyone on behalf of the stallion owner.**

**For the "ISG Policy for the use of Frozen Semen" I tried to clarify the 3rd point:**

**3. ....due to the allowance of 2 test breeding between licensing and performance test completion, in which the HB I stallion can be used for breeding and progeny will be recorded as if a Book I stallion.**

Kathy second, the vote was unanimous.

Inspection: Steve told us we do have 6 horses (plus eventually 2 from Canada) for the inspection. We decided on a cut off date : 1.June 2014 to be able to organize for August an Inspection.

Becky's position as Awards Chairperson (Point Keeper) is vacant: Holly will ask Chris and Marty Power if they would be willing to donate their time and talent. (Note: They said YES!)

KS Tradition LCR (Tribute): The Board saw it unanimously as fair to allow Tribute to be registered under the conditions of the offer towards ASAV members.

Linda moved to adjourn the meeting, Holly second.

Respectfully Submitted, Anke Brander, President

# 2013 PShR End of Year Award Honorees

## Congratulations!

In recognition of their accomplishments, Champions were awarded a polo shirt with the PShR embroidered logo. Reserve Champions received a PShR mug. Champion and Reserve Champions received Higher Standards saddle soap. Everyone who entered received a Certificate of Merit. Thank you to Higher Standards for your generous donation.

## Endurance

Champion: Dale Scoville, Ninja PFF

Reserve Champion : Dale Scoville, Aria Mia SE

Honorable Mention: Chris Power, WineGlass Debonair

## Limited Distance

Champion: Sherry Aune, Lily Creek Rhythm

Reserve Champion : Olivia Rudolphi, H. WineGlass Syrah

Honorable Mention: Marty Power, H. WineGlass Soave

Honorable Mention: Chris Power, WineGlass Debonair

Honorable Mention: Olivia Rudolphi, WineGlass Sherry

Honorable Mention: Linda Rudolphi, WineGlass Dubonnet

Honorable Mention: Linda Rudolphi, WineGlass Sherry

## Competitive Trail

Champion : Marty Power, H. WineGlass Soave

Reserve Champion : Olivia Rudolphi, WineGlass Sherry

Honorable Mention: Chris Power, WineGlass Debonair

Honorable Mention: Holly Kemmis, WineGlass Remeny

Honorable Mention: Holly Kemmis, WineGlass Dora

## Versatility Horse

Champion: Chris Power, WineGlass Debonair

Reserve Champion: Marty Power, H. WineGlass Soave

## Shagya Ambassador

Champion: Holly Kemmis

Reserve Champion: Olivia Rudolphi

Honorable Mention: Linda Rudolphi

## High Point Rider

Champion : Olivia Rudolphi

Reserve Champion : Holly Kemmis

## Meritorious Sire

Champion : Linda Rudolphi, \*Budapest

**2013 CHAMPIONS—Top Left: Ninja PFF & Dale Scoville, Top Right: H. WineGlass Soave & Marty Power, Middle: Lily Creek Rhythm & Sherry Aune and Bottom: WineGlass Debonair & Chris Power**

## MAX

*1999 Shagya-Arabian Stallion*

Max is a coming 16 year old who served as Eric's primary AERC, NATRC and MOTDRA competition horse for 9 years. He's been pretty easy-going over those years, for a stallion. Clearly he is manageable or he wouldn't have collected nearly 1500 competition miles along the way.

He has sired 18 foals, of which we have pictures of about eight, so feel free to get a hold of us if you want some baby

**We offer field breeding, hand-breeding, frozen semen (preferred), and live cooled semen, with live cooled by arrangement only since collection has to fit into our ride schedule. Historically, Max's live cooled and frozen semen has worked very well.**

**2014 Stallion service fee: \$500 + Mare owner pays for collection fee**

The pictures are of him at around age 9. He has a marvelous canter that you have to see to believe. A really exceptional trail horse, Max taught us all about distance-riding, as novices we really didn't know what we were getting into. As a rider, what I like best about him is his built-in ability to take care of himself on-trail. He taught me how and when to shut down on an endurance ride and when to push. He seems to pass this behavior on to his get, the owners who have kept in touch all say their Max

*PShR Specialty Plus—Endurance Pace*

*Over 1,000 miles of successful competition*

## TidBits.....A choice or pleasing piece of information

**2014 PShR Inspection**

Support an East Coast inspection!! The application cut off date is June 1, 2014. Contact Steve Boles today. [sboles@hsc.edu](mailto:sboles@hsc.edu)

**Win a PShR Mug!!**

We have new challenge in this newsletter for anyone wanting to play! Instead of hidden letters for the name of a famous Shagya - this time

we are giving a mug to the first person who clicks on the updated PShR website. The website committee has been working all winter with new features and information— it is going to be spectacular. However, instead of announcing when the update is being launched, you are going to be the announcer. Check the website every day to check for the updates. When you see the PShR website updates email Anke Brander as soon as possible to win a PShR mug! The website address is:

**[www.performanceshagyaregistry.org](http://www.performanceshagyaregistry.org)**

This is open to everyone, good luck!

**Shagya Law Enforcement!!**

WineGlass Dominus is now a Medina County Sheriff's Deputy horse and Becky McCarty is a Deputy!!!!

They will work crowd control at large functions like County Fairs and Black Friday at a large Outlet mall until 2:00 am .

Dominus and Becky will be in Parades representing the Sheriff's office. Besides looking good the pair will participate in search and rescue efforts if needed.

Next month they will also be trying out for the Summit County Mounted Unit .
