**Note**

With judgment of 12 May 1998 the regional court Hamburg decided that one has to answer for the contents of the linked side possibly by the production of a link. According to the LG, this can only be prevented by explicitly distancing oneself from these contents. We have on our site links to other sites on the Internet. For all these links applies: We dissociate ourselves hereby expressly from all contents of all linked sides on our side. This declaration applies to all links on our site and to all contents of the pages to which the banners and links lead

**Warning**

In its sentence dated May 12th 1998, the Regional Court of Hamburg has considered that the implementation of a link calls actually takes place over the responsibility of the contents of the linked site. This can only be disclaimed by the contents of the linked site. On our site we have created links with other sites. For all these links the following is valid: By means of this message, we are disengaging ourselves from any responsibility. This declaration is valid for all links to our site and for all the contents of which are the links and the banners are referring.
